

Captain Carl Irvin Rhoden OD

February 16, 2022

Leaving: Brothers; Henry and Errol , Sisters In law; Ida and Sylvia, Nieces, Nephews, Cousins, Other relatives and Friends.

Tribute Wall

GP

“ I was saddened to just learn, today, that an old Friend had passed away. I retired 23 years ago, having spent 29+ years in Toronto Tower, as an Air Traffic Controller. I was sitting at my computer, thinking of Carl, and decided to google him up. I first met Captain Rhoden when he was a First Officer on Air Jamaica's DC 8 that flew between Mo Bay and Toronto Int'l Airport, in the early 1970s. We kept in contact as Carl flew into Toronto and would occasionally meet up on a layover. I remember him successfully running as an MP for the Jamaican Parliament. Life moved on and we lost track of each other. RIP Mr. Rhoden. You are remembered as a most gentle and honourable man. Garry

AS

What a coincidence i just thought of him and googled his whereabouts only to see this ...
He raised bees...i remember that..
May he find light.

JM

I used to often speak with him as he was about to swim his laps at Doctors Cave Beach (approximately 1971). What a nice VERY CHARISMATIC man

“ I only just learned of Carl's passing and am absolutely crushed and sad. I left Jamaica many decades ago and it was only 3 years ago that I was able to get Carl's contact information. but he never replied back to me. Carl was one of the few friends I had in MoBay, who was always peaceful, gentle and happy. My friend Cathy, Carl and I would often just sit on the benches at Dr's Cave terrace to talk about so many things. The last time I saw him was 50 years ago, when I was trying to fly back to Miami incognito, only for a deep voice behind me saying hello, Christine! He had piloted the plane I had arrived in. I was lucky to have him as a friend, and have always missed him.
